

Dear Dr. Pepper,

NIST has thoroughly reviewed the assertions in your letter to the Department of Commerce Office of the Inspector General dated Dec. 12, 2013 (received by NIST on Jan. 14, 2014), regarding our investigation of the collapse of World Trade Center 7 on Sept. 11, 2001. Based on our review, NIST finds no reason to modify or change our findings and conclusions.

As previously indicated when presented with similar questions, NIST remains confident of the technical work contained in the final report of the WTC 7 report issued on Nov. 20, 2008.

Sincerely,

Michael Newman
