

# MEET RICHARD GAGE, AIA

Richard is a 24-year architect from the San Francisco Bay Area, and a member of the American Institute of Architects who has co-managed \$100M steel frame projects. He founded **Architects & Engineers for 9/11 Truth** based on his own unyielding quest for the truth about 9/11.

## DOCUMENTARY FILMS

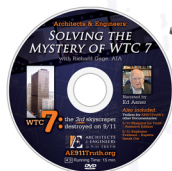

"Most viewed & shared" TV program on PBS.org

**43** top building and technical professionals lay out the controversial WTC evidence

Richard Gage, AIA, Producer/Director, introduced this groundbreaking, documentary – hosting a lively debate after the film, across the country in a 32-city screening tour.

## 15-min. Documentary Starring Ed Asner

### SOLVING THE MYSTERY OF WTC 7

Find out what brought down the third skyscraper on 9/11

*"Richard Gage courageously exposes the 'inconvenient truth' about 9/11, and has inspired thousands of others to act heroically and speak out – including me."*

– Ed Asner, Former President, Screen Actor's Guild

9/11: Re-examining the destruction of the 3 World Trade Center skyscrapers

# 9/11: EXPLOSIVE EVIDENCE

## DON'T BE THE LAST TO KNOW!

- Get the REAL story about the World Trade Center on 9/11.
- Richard Gage provides the facts and scientific forensic evidence – not speculation, theories, or conjecture.

- Your campus will be on the cutting edge with this myth-shattering presentation
- This dynamic multimedia presentation will inspire students to think independently, derive their own conclusions, and take part in civic engagement.

## PRESENTATIONS/INTERVIEWS

Over 270 live presentations in 40 US cities and 23 foreign countries – including engagements at MIT, Cambridge University, and 100 other colleges and universities.

Outside the US, Mr. Gage has given this dynamic live presentation in **Canada, Australia, New Zealand, Japan, Belgium, Germany, Spain, Austria, France, England, Scotland, Wales, Ireland, Switzerland, Holland, and several other countries.**

*This live presentation has also been filmed and is available as AE911Truth's definitive evidence DVD.*

Over 250 radio interviews including GCN Live, WBAI, KPFA, and Coast to Coast AM.

TV interviews include National Geographic, CBC BBC TV, and Fox News affiliates in Fresno, CA, and Detroit, MI.

Our work was seen on "Geraldo At Large".  
*"It is an intriguing topic – I certainly am much more open minded about it than I was, and it is because of the involvement of the 9/11 families, and all these engineers and architects."*  
 – Geraldo Rivera

# MYTH-SHATTERING EVIDENCE

## TRUST YOUR EYES, THE FACTS, AND THE LAWS OF PHYSICS

**1,700 architects & engineers call for a new investigation of the World Trade Center destruction citing evidence of controlled demolition.**

*Richard Gage, AIA, asks "What are these 200-fps high-speed ejections of pulverized building materials?"*

## WTC Twin Towers

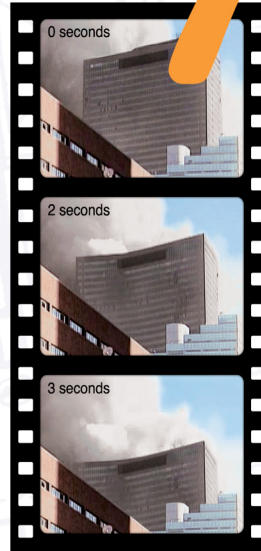

*Heavy structural steel pieces were ejected laterally at 60 mph in a 1400-ft. diameter, many of them leaving rapidly expanding dust and smoke trails – a geometry caused by explosives force.*

## WTC 7

The destruction of the **third skyscraper** on 9/11, 'WTC 7', looks like a classic controlled demolition.

*The building fell almost symmetrically straight down in less than 7 seconds at free fall acceleration through what was the path of greatest resistance. This required a precisely timed and patterned removal of critical columns on all floors.*

*Most of the debris ended up in this compact pile – centered within the original footprint.*

FEMA documented in Appendix C of its Final Report a "severe high temperature corrosion attack on the steel" – sulfur and molten iron penetrated into the steel. Office/jet fuel fires cannot account for this. Other research revealed the signature of thermite, which creates molten iron.

Microspheres formed from molten iron and other elements were found in all the WTC dust by USGS, the RJ Lee Group, EPA, and independent scientists. Thermite reactions account for the ubiquitous spheres.

FDNY and others found several tons of "molten steel ... flowing like lava" in the ruins. 1400° F office fires cannot produce 2800+° F molten steel/iron. Thermite incendiaries can.
